

NEW MEMBER BENEFIT

DID YOU KNOW?

OSHA HAS NEW REPORTING RULES FOR CONTRACTORS

OSHA revised its requirements for recording & submitting workplace injuries and illnesses. It is now required that some of this information be submitted to OSHA electronically for posting to the OSHA website if you have 20 or more employees.

As a member of Builders Exchange of Michigan, you may qualify for a new benefit: a time saving record keeping program available through Lake Michigan Insurance Agency that will enable you to create, track and view injury reports in real-time using the information you are already required to collect.

This secure, dynamic recordkeeping program works on all computer and mobile platforms and will allow you to:

- ✓ Create all OSHA reports instantly without the hassle of dual entry
- ✓ Create each state's First Report of Injury
- ✓ Track and manage injuries
- ✓ Print all required OSHA reports
- ✓ Access detailed injury metrics in real time
- ✓ Instantly communicate with the agency
- ✓ Save time & eliminate errors

For more information, contact Ken Jansen at 616-234-6983 or Tom Clouse at 616-291-9189.
