

BRINGING THE BEST OF TECHNOLOGY AND BUSINESS TOGETHER

Trivalent Group is Michigan’s Leading Provider of Managed Services, IT Services, Cloud, Business Continuity, and Managed Networks. We are excited to partner with the Builders Exchange of Michigan, to offer members special program pricing with discounts up to 25% off of Trivalent Group services.

Whether it’s Trivalent Managed Cloud Services, private hosted or on-premise cloud, or deploying and managing Microsoft Office 365 or Azure, cloud computing provides strong competitive advantages, giving organizations better scalability, performance and security than they could otherwise afford to deploy.

Our Managed Networks solutions ensure that your backbone stays strong and healthy, delivering superior performance and unparalleled network support. From network design, vendor management, hardware installation and infrastructure development to ongoing monitoring, billing analysis and problem resolution, a simple monthly fee eliminates the headaches and hassles of managing your network.

At Trivalent, we guide organizations as they mitigate continuity risk and create plans to get back on track as quickly as possible in the event of a disaster. Our comprehensive Business Continuity and Disaster Recovery solutions lead the market in helping executives prioritize their recovery time and objectives.

We partner with organizations to provide professional IT services to help achieve IT goals in light of shifting deadlines, new technological innovations and finite personnel and budget resources. As a Top 100 Managed Service Provider in the World since 2011 (MSPmentor), our Managed Services offering includes a Trivalent Virtual CIO (vCIO) to serve as your partner for long-range infrastructure planning. We also provide point-product solutions for specific IT needs.

A few of our strategic partnerships include:
