

FIXED WIRELESS SERVICE DISCOUNT

We know how important it is to complete a construction project on time and on budget - that's where Trivalent Group is here to help! Together with 123Net, Michigan's largest local provider of high-speed fixed wireless and with over 55 PoP sites across the state, we can provide quick installation and temporary fixed wireless solutions to your site with speeds up to 10Gbps to get your job done right. In addition to enhanced availability and quality using redundant IP network infrastructure, 123Net's fixed wireless delivers the utmost in performance, reliability, and scalability.

Exclusive to Builders Exchange members, we are offering a 10% discount on fixed wireless solutions. Contact us today for more information!

ABOUT TRIVALENT GROUP

Trivalent Group is Michigan's leading provider in managed services, cyber security, cloud, business continuity, and managed networks.

Our world-class service has earned us a position among the Top 100 Managed Service Providers in the World each year since 2011 (MSPmentor).

ABOUT

123Net is Michigan's premier data center, network and voice services provider. Since 1995, they have successfully delivered the highest quality voice, data and colocation infrastructure services to progressive clients across Michigan, including large and small enterprises, carriers, ISPs, and a variety of technology organizations.

WWW.123.NET/BUILDERS-EXCHANGE

*Service is available within a 5 mile radius of PoP sites and pricing is budgetary. On-site surveys will be conducted after a signed contract has been received. For long-term installations, if there is no line of site to your location, there is a possibility that fixed wireless may not be a solution for you at this time. If this is to occur there are fiber solutions that may be available to you depending on location.
