

TIRED OF PAYING FOR YOUR COMPETITORS' MISTAKES?

Don't let other construction companies' mistakes cost you money. The Builders Exchange of Michigan has created a one-of-a-kind commercial insurance program that emphasizes comprehensive insurance coverage that is value-priced and eliminates the headache of worrying about your competitor's performance.

CONTROLLED SAVINGS

Your savings are based on your company's performance - not on how well other companies collectively performed throughout the year. Policies are individually underwritten and include coverages specifically designed for each member.

With this exclusive program, you start profiting at the time of enrollment with savings benefits offered only through the association, including paying only on labor for your subcontractors NOT on materials and 10% on worker's compensation.

CONFIDENCE

The Builders Exchange takes the guesswork out of selecting an insurance program. We've vetted and selected a top-rated carrier to get you coverage that meets or exceeds the highest standards.
