- EMPLOYMENT PRACTICES LIABILITY

**Don't let other construction companies' mistakes cost you money.** The Builders Exchange of Michigan has created a one-of-a-kind commercial insurance program that emphasizes comprehensive insurance coverage that is value-priced and eliminates the headache of worrying about your competitor's performance.

## CONTROLLED SAVINGS

Your savings are based on your company's performance - not on how well other companies collectively performed throughout the year. Policies are individually underwritten and include coverages specifically designed for each member.

## INSTANT BENEFITS

With this exclusive program, you start profiting at the time of enrollment with savings benefits offered only through the association. We take this upfront approach with you every step of the way.

## CONFIDENCE COUNTS

The Builders Exchange takes the guesswork out of selecting an insurance program. We've vetted and selected a top-rated carrier to get you coverage that meets or exceeds the highest standards.

The construction business has its risks. Accidents can happen in an instant, and the damage can be unthinkable. **Enjoy peace of mind with the Builders Exchange of Michigan Commercial Insurance Program**, underwritten through Frankenmuth Insurance, knowing that you are getting the best pricing and coverage when it comes to your insurance needs.
